## **Meeting Agenda**

### **Public Meeting to Address Water Quality in the Copano Bay Watershed**

August 1, 2012  
5:30 PM – 7:30 PM

Refugio County Community Center  
305 Swift Street  
Refugio, TX 78377

---

The purpose of this meeting is to work with the Copano Bay Watershed Stakeholders to begin discussing management measures that would be most effective in reducing bacteria in the watershed. Those management measures, as recommended by the stakeholders, will be drafted into the Total Maximum Daily Load (TMDL) Implementation Plan (I-Plan) and given back to stakeholders for review in following meetings. Other topics for the meeting will be a review of the decision making structure discussed at the last meeting and an examination of the interests needed to be represented at by the Coordination Committee. Stakeholders will then break into different workgroups to begin reviewing examples of management measures and developing recommendations for inclusion into the TMDL I-Plan.

---
